Career Objective

As a passionate frontend developer, I excel at crafting dynamic and user-friendly web experiences. I have successfully built and optimized numerous websites, focusing on responsiveness and speed. Driven by a love for clean design and innovative solutions, I continuously stay ahead of trends and sharpen my skills in HTML, CSS, JavaScript, React, and UI/UX principles.

Education

B. Tech in Computer Science

R.D Engineering College, Ghaziabad, Uttar Pradesh, India (Present)

- First Year: 87.66%
- Second Year: 76.7%

Intermediate in Science

Indraprastha Public School, Ghaziabad, Uttar Pradesh, India (2021-2022)

- Percentage: 76.66% (CBSE)

High School

Indraprastha Public School, Ghaziabad, Uttar Pradesh, India (2019-2020)

- Percentage: 85.66% (CBSE)
-

Skills and Technical Knowledge

- HTML, CSS, JavaScript
 - ReactJS, Core Java
 - Git and Github
 - Tailwind Css
 - Data Structures and Algorithms (DSA)
-

Projects

Spotify Clone (HTML, CSS, JavaScript)

A dynamic web application replicating Spotify's user interface and functionality. Features include playlists, track search, and audio controls, with a responsive design for seamless user experience.

Netflix Clone (HTML, CSS, JavaScript)

A frontend web application mimicking Netflix's user interface. Includes a dynamic homepage showcasing popular movies, TV shows, and trending content, built with responsive design principles.

Snake Game (HTML, CSS, JavaScript)

A classic Snake game where the snake grows as it eats food while avoiding collisions with walls and itself. Utilizes DOM manipulation and event handling for responsive gameplay.

Tic-Tac-Toe (ReactJS)

A modern Tic-Tac-Toe game with win detection and reset functionality. Built using React's component-based architecture and state management.

Ping Pong (HTML, CSS, JavaScript)

A fast-paced Ping Pong game featuring keyboard controls, ball movement, and collision detection. Offers smooth, responsive gameplay with a minimalist design.

To-Do List (HTML, CSS, JavaScript)

An interactive web application for task management. Allows users to add, delete, update, and mark completion of tasks effectively.

Achievements

- Successfully completed a one-month remote internship at CodSoft Technical Solution as a Web Developer intern.
